

2nd Semester COVID-19 Spread Levels

Based on Indiana's Back on Track Plan

Per the Indiana State Department of Health, the COVID threat levels for each county will be based on the average of two metrics:

1) Number of new cases in the past week per 100,000 residents 2) Percent positivity

Update: A county must remain at a lower Weekly Two-Metric Score for two consecutive weeks to move down to a lower advisory level.

Each Wednesday, counties will be assigned a score of 0-3, which will place the county into one of four colors. If necessary, LPCSC will implement any programming changes needed the following week.
