

LPCSC

2020/2021 School Year

“Getting Back on Track”

Covid 19 Update

August 10, 2020

Presentation Topics

- 1. Student Registration**
- 2. Teacher preparations**
- 3. Website updates**
- 4. Documenting Covid cases**
- 6. Start of school –Covid threat levels**

Student Registration

Students are signing up for options:
1, 2, or 3. These options are located on
our web site:

<http://www.lpcsc.k12.in.us/docs/coronavirus/appendix/T-Learning%20Plan%20Overview%20for%20Parents.pdf>

Teacher Preparations

- ❑ Postings are out for distance learning teachers
- ❑ Discussion with the teachers association regarding teacher placement, daily schedules, etc.
- ❑ Curriculum discussion with instructional coaches
- ❑ Planning professional development
- ❑ Teacher FAQ
- ❑ Staff handbooks

Website Update

Since March of this year LPCSC website has served as a conduit for information regarding our journey through the Coronavirus epidemic. The website is updated regularly including important presentations and decisions made at the building and corporation levels. Review of website-

<http://www.lpcsc.k12.in.us/>

Documenting Covid Cases

One of the processes documented on the website outlines how LPCSC staff will be documenting and investigating Covid 19 cases, reports of exposure, quarantine, etc.

This will be an important process this year in order for us to keep track of cases and direct students and staff associated with exposure.

Documenting Covid Cases

To date we have documented every potential exposure reported and worked with the health department and contact tracing center on positive cases.

We have had three positive student cases and no adults.

School Year Start

The 2020/2021 school year is scheduled to start on August 20, 2020 for teachers and August 24 for students.

The La Porte Community School Corporation has been monitoring County Covid Data and participating in weekly County Covid 19 meetings since March.

Corporations and Health Departments across Indiana are adopting the use of a color coded threat level and phases of programming framework to guide their programming next school year.

School Year Start

The following Graphic outlines color coded ranges of Covid 19 threat levels which correspond with instructional programming formats for each phase.

The ranges for each threat level correspond closely with the ranges established by the Indiana State Department of Health ranges listed on their website.

School Year Start

LPCSC Covid 19 threat level chart

School Year Start

We will be making a determination as to which phase of programming we start the school year with on August 17, 2020.

We will use a Covid 19 case positivity average for La Porte County averaged over a 14 day period leading up to August 17, 2020. The data will be taken from the Indiana State Department of Health website:

<https://www.coronavirus.in.gov/2393.htm>

As of 1.p.m today, the last 14 days of data available (7/25-8/7) computes to 5.5 percent positive for La Porte County.

Board Questions / Discussion
