

Dear Parents and Guardians,

I am John Espar, your LaPorte County Prosecuting Attorney. I am thrilled to introduce the first time ever, Internet Crimes Against Children parent information Facebook page. I am inviting you to become part of the Internet Crimes Against Children Task Force of LaPorte County by viewing our Facebook page at www.Facebook.com/LaPorteCountyICAC/ and opening a dialogue with your child about the content on this page.

The page offers relevant and timely content to inform, educate and alert you to common smartphone or tablet apps which may expose your child to unnecessary risks online. The page will inform you of ways to monitor your child's devices to keep them safe online. The goal is to broaden your knowledge of your child's life online which lends itself to good old-fashioned parental probing.

The ICAC Task Force is proud of our relentless efforts to investigate and prosecute crimes against children however, we are proudest of those crimes that we prevent. The prevention of crimes and protection of our children is the ultimate purpose of this ICAC parent information Facebook page.

Be sure to "Like" the page to continue receiving up to date information from our investigators.

Very Truly Yours,

John Espar
LaPorte County Prosecuting Attorney
